## Industrial robustness with an extremely solid quality

Alkari stands for an industrial look and excels in its simplicity.

These panels therefore find their way very quickly in business applications such as offices, showrooms and workshops.

Alkari infrared heaters are manually assembled to the highest standards on the market.

All components must meet the same standards to ensure that our customers receive optimal quality.

All Alkari infrared panels are tested and certified in our factory.

We guarantee a heater which can heat up your home for years without problems.
