Ecaros Infrared Heating

Ecaros Pro Infrared panels

High-quality performance lies at the heart of the Ecaros Pro.
Featuring a revolutionary technology that fosters efficiency and sustainability, this infrared panel heightens the thermal quality of your space without compromising on style.

Ecaros Pro harnesses the power of infrared radiation, enabling it to generate and evenly distribute heat, resulting in a comfortable and cozy ambiance.
What truly sets the Ecaros Pro apart is its relevance to modern home construction.

In an era where sustainability and energy efficiency are at the forefront of the building process, Ecaros Pro fits perfectly into this trend. It is a choice that not only complements the architectural beauty of modern homes but also reduces the ecological footprint while providing a superior level of comfort.

Ecaros Pro is primarily offered through building promoters, a testament to its professional quality and reliability. Building promoters recognize the value that Ecaros Pro can add to modern living structures, making it a staple part of their projects.

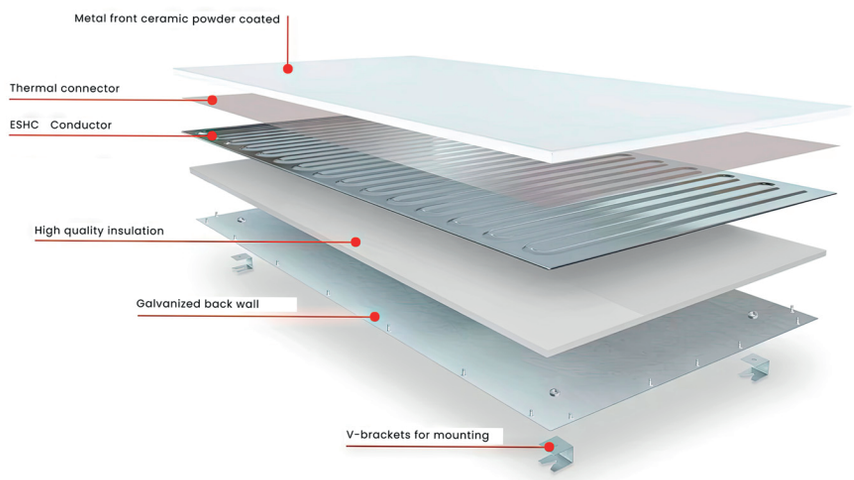

Choose the future of heating. Choose Ecaros Pro - where professional performance and modern home construction come together. Your comfort is our mission.
With Ecaros Pro, warmth is not just felt, but also seen.

*** Highest radiation performance thanks to unique ESHC technology**

*** Thinnest high performance infrared panel on the market**

*** Greatest energy efficiency in converting electrical to radiant energy**
